Diane Johnson 10/22/98
Signature Date

AMENDMENT

Asst. Commissioner for Patents
Washington, D.C. 20231

Sir:

This is in response to the Office Action dated June 24, 1998, and includes a separate request for a one month extension of time, extending the time for response to October 24, 1998.

IN THE SPECIFICATION

Page 7, line 13, after "mold", insert --plate--.

IN THE CLAIMS

Please amend claim 1 as follows:

RECEIVED
OCT 30 11 17
GROUP 1506

1. (amended) An apparatus for operating a food product molding machine ^{of the} ~~type~~ having a feed ram device receiving ^a food product from a supply and transferring ^{said} food product into a mold cavity of a mold plate in a fill position, ^{wherein said} which mold plate is cycled in a linear reciprocal path defined by a return stroke to ^a the fill position and an opposite discharge stroke to a discharge position, a product discharge device operable while the mold plate is held for a discharge dwell time in the discharge position to remove the product from the mold cavity, and a plate shuttle supporting the mold plate for movement therewith along the linear mold path, the apparatus comprising:
